

The 2nd VP

By Don Hill

Thanks to all who took that extra effort keeping our print critiques a success.

Wow! Those of you who decided not to attend our first print Critique of the year missed out on one of our most educational learning experience we as a Camera Club can provide. Remember, A print critique is designed to evaluate the pros and cons of our work with skilled professional photographers explaining why and how we can improve our photographic and printing abilities.

The Count:

Total prints.....93

Total Makers.....18

Disqualify / Remove from competition

Our print committee takes pride in handling your prints and protects them from the elements, however, when rules are not followed damage may occur.

Several prints were received with Velcro adhesive fasteners on the backside leaving the committee with a decision on disqualifying or removing the fasteners. When removing fasteners or tape a sticky area on the mat remains and can damage your print or any other print coming in contact. We will remove prints from competition when we find any sticky material during the pre-prep.

During normal handling of a three board matting system, several of the back mat boards separated due to inadequate bonding. Do not expect one or two pieces of double back masking tape to maintain the integrity during normal critique handling.

During the pre-prep of prints our committee had to disqualify one print for incorrect mat size.

We the Print Committee will remove and disqualify any print not in accordance with the Print Critique Rules found at our Web site at the following URL:

Print Critique Rules

Print Critique Rules can be found at the following locations:

- On the club web site:

www.lhcameraclub.com/Critiques

Look under the section on Print Critiques for a link to the PDF file.

- 2011 Membership Directory

Next Print Critique

The next print critique will be Saturday June 18th, 10 AM.
