

Let's Produce a Show

By Tom Getz

Announcing the Camera Club's Third Annual Digital Slide Show Competition, June 13, 2011!

You have a chance to be creative with your best digital photos by organizing them into a 6-minute digital slide show and entering our competition. Almost any subject may be entered, from the best of your best travel photos to a photo shoot of a local event. Producing a digital slide show will allow you to easily share with family and friends and entertain or inform others. Camera Club members will assist you in making your first show, or providing critique and suggestions, if requested. If you have many good images, but none that are perfect for competition, a show may be the answer to your creative side.

Rules

Your show is limited to six minutes. You may not be identified in your program.

The complete rules for entering are on the Camera Club's web site.

Look for the sub-topic on Slide Shows.

Deadline for Entry

The entry deadline is May 31, 2011. Tom Getz will provide assistance to club members during April (949-559-5219), and George Harper and Pat Wilkinson will also be available to answer questions. After you have produced your first show you will wonder why you waited so long.
